Coordinated by the Professional Development and Field Placement Office and EYES (Educating Youth in Engineering & Science) with partners: Education Students' Society and the Saskatchewan Teachers' Federation

You are invited to contribute to the Teach and Learn in a Digital World: Here and Now 2023 Conference where we will investigate our practices and exchange innovative ways of looking at Digital Literacies and Creative Technologies. Modeling innovation, this conference design is intended to disrupt the traditional vertical delivery framework with lateral exchanges in the spirit of dynamic discussion.

**Session Themes:** We welcome critical conversations and creative works surrounding notions of Digital Skills; Creative Technologies; Inclusivity in Technology; Technology Integrations Across Curriculum and Subject Areas; Digital Citizenship - Digital Etiquette, Digital Law, Online Security and Digital Access; Media Literacies; Critical Thinking in the Digital World; Digital Self-Care, Health and Wellness; Artificial Intelligence; Digital Art and Media Production; Digital Game Based Learning; Makerspaces and Maker Pedagogies; Robotics, Coding, and Computational Thinking; 3D Modelling and 3D printing; Social Media in Education; Classroom Management and Technology.

**Formats:** We welcome any and all pieces that address Digital Literacies and Creative Technologies in the form of paper and panel presentations (shared or individual); exhibits of visual, textual and performative pieces; workshops; book talks; exchange forums; and maker fairs.

**Conference structure:**

- March 24, Friday (7 – 9 PM): Keynote, live entertainment and welcome from our elder in residence
- March 25, Saturday (10 AM – 4 PM): Concurrent Sessions – Hybrid offerings
- March 26, Sunday (10 AM – 2 PM): Concurrent Sessions – Hybrid offerings
